

PATIENT QUESTIONNAIRE

Title: Mr. Mrs. Ms. Other: _____ Name: _____

Date of Birth: _____ Sex: ☐ M ☐ F

Address: _____ Postcode: _____

Tel: _____ Mobile: _____ Email: _____

- 1.** Throughout the day, you perform activities that require your eyes to focus at different distances. Indicate which ones are most important to your lifestyle.
- ☐ 30-45 cm: Reading up close. Sewing.
- ☐ 45-70 cm: Reading prices in a supermarket. Using a computer, tablet PC, or smartphone. Reading music.
- ☐ 2-6 metres: Indoor activities, watching TV, cooking and cleaning.
- ☐ 6 metres and beyond: Daytime driving, outdoor sports, reading road signs.
- ☐ 6 metres and beyond in reduced light: Nighttime driving, watching movies in a cinema, attending a concert or play, star gazing.

- 2.** Are you interested in having a full range of vision after your surgery? This means being able to conduct everyday tasks at near, intermediate and far distances with limited need for spectacles.
- ☐ Yes ☐ It's not that important to me

- 3.** Following your surgery, if you needed to wear glasses occasionally, for which of the following activities would that be acceptable?
- ☐ For small print (e.g., labels on medicine bottles) ☐ Reading at less than 45 cm
- ☐ Using a computer or cooking ☐ Driving ☐ Never

- 4.** Following your procedure would you choose to spend more than an hour each day reading books at a close distance (i.e. at a distance of less than 45 cm)?
- ☐ Yes ☐ No

- 5.** If you could have good vision during the day, would it bother you if you experienced some rings or "halos" or glare coming from lights at night?
- ☐ Yes, it would bother me. ☐ No, I wouldn't mind it too much.

- 6.** How important is it for you to discern subtle differences in color?
- ☐ Very important ☐ Fairly important but not critical ☐ Not important

- 7.** How important is it for you to see well in low-light conditions?
- ☐ Very important ☐ Fairly important but not critical ☐ Not important

- 8.** How would your friends describe you?
- 1 2 3 4 5 6 7 8 9 10
- Easygoing Perfectionist

As with any medical procedure, risks and potential complications may occur.
Please consult your eye care specialist for detailed information and to discuss these possible risks and complications with you prior to the procedure.
